Road Map

Q1 2024:

Technical Development Framework

- **Conceptualization of Candlesticks:** Initial ideas and goals for the Candlesticks project are formalized.
- **Formation of Initial Project Team:** Assembling a team of experts in blockchain, AI, finance, and software development.
- **Development Kickoff:** Official start of the project development.
- **Architectural Design:** Designing the technical architecture of the platform.

Q2 2024:

Phase 1 Commencement

- **Token Sale Phase 1:** 40,000,000 CANDLES available at USDT\$0.01.
- **A.I. Model POC Development:** Start developing the Proof of Concept (POC) for the AI model that will curate investment portfolios.

Q1 2025:

Phase 1 Completion

- **A.I. Model POC Development Complete:** Successful completion of the POC for the AI model.

Q1 2025:

Phase 2 Commencement

- **Token Sale Phase 2:** 40,000,000 CANDLES available at USDT\$0.04.
- **In-house A.I. Model Development Commencement:** Begin the development of the in-house AI model for portfolio curation.

Q3 2025:

Phase 2 Completion

- **In-house A.I. Model Deployment:** Deployment of the AI model to start curating investment portfolios.
- **In-house A.I. Model Development:** Continuation of the AI model's enhancement and refinement.

Q3 2025:

Phase 3 Commencement

- **Liquidity Pool Launch:** Launch the liquidity pool with initial pricing details to be announced (T.B.A.).
- **In-house A.I. Model Development for Auto Trading:** Develop AI capabilities for automated trading.
- **Development for Link to Exchange:** Begin development to connect the platform with major cryptocurrency exchanges.

Q1 2026:

Phase 3 Completion

- **Link to Exchange Deployment:** Deploy the integration that links the platform to exchanges.
- **A.I. Auto Trading Deployment:** Launch the AI-driven automated trading feature.

Q1 2026:

Phase 4 Commencement

- **Staking Protocol Development:** Develop a protocol for staking CANDLE tokens.
- **Wallet Integration:** Begin integration with popular cryptocurrency wallets.
- **DApp Development:** Start development of decentralized applications (DApps) for enhanced user interaction.

Q3 2026:

Phase 4 Completion

- **Staking Protocol Deployment:** Implement the staking protocol on the Candlesticks platform.
- **Wallet Integration Deployment:** Complete the integration with cryptocurrency wallets, providing users with secure storage solutions.
- **DApp Deployment:** Launch DApps to offer users a seamless and engaging experience.
- **Token Migration to V2:** Migrate the CANDLE tokens to version 2, enhancing functionality and security.

“Candlesticks is committed to revolutionizing the crypto investment landscape with a secure, transparent, and AI-driven platform.

Our meticulous road map ensures the strategic development of features aimed at providing stable returns, ease of use, and comprehensive integration with the broader cryptocurrency ecosystem.

Join us on this journey towards financial freedom and take advantage of the opportunities that Candlesticks offers. Invest in your tomorrow today!”
